It has been several days since some liar at Washington hasn't been called by his right name.

It is said that things are dull on the New York Stock Exchange. That means that suckers aren't biting lively now.

The meat packers have some consolation in the fact that their case is not as bad as the election buying in famies of President Roosevelt's party.

"Excuses are useless," remarks the Brooklyn Citizen. Well, they are always looked on with suspicion, especially if the excuse maker hasn't made an undisputed record for veracity.

"President Roosevelt is determined to have his way," remarks a contemporary. He even has his waterway the way he wants it—lock or nothing.

Those North Carolina Republicans ought to be careful how they knock Marion Butler. He might take a notion to come back to the Democratic party.

"Let the Republican party appeal to the intelligence of the people," advises a Western North Carolina Republican. Gee! If you do that the appeal will be dismissed and the sentence of the criminal court will be carried out.

"What is inconsistency?" inquires a contemporary. Well, for a good example there's Roosevelt trying to "bust" the trusts and standing pat for a tariff that creates and bolsters up what he is trying to "bust."

A Philadelphia court jacked up a North Carolinian for having fonr wives and came to the conclusion that he was crazy. The crazy man probably reached that conclusion three or four laps ahead of the court.

Before President Roosevelt discharges Dr. Neill and Lawyer Reynolds who nosed into the packing house business he will please lend them to Senator Tillman to investigate those national banks that contributed to the national Republican campaign fund.

Mr. J. W. Ragsdale, formerly one of the "Coast Line boys," in Wilmington, has been a State Senator in South Carolina, came very nearly getting into Congress two years ago, and is now making the race for Attorney General. "Rags" is coming up all the time and his Wilmington friends like to hear of it.

Says the Atlanta Journal: "The North Carolina professor who said that with the exception of Robert E. Lee, Booker Washington was the greatest man born in the South in a hundred years, will breathe a 'freer atmosphere in Massachusetts,' as the Boston papers say." He has our permission to suck in all of that kind of atmosphere that he wants.

HORSES FOR POLICE

Committees of Three Departments Well Pleased With Purchase In St Louis

THANKS VOTED MR. SCHLOSS

Mules for Sanitary and Streets and Wharves Departments—Arrangements Being Made For the Mounted Officers.

The horses purchased by Mr. N. A. Schloss for the Police, Sanitary and Streets and Wharves departments of the city arrived from St. Louis, Mo., over the Seaboard Air Line Sunday morning and are pronounced by competent horsemen as the best lot of live stock brought here from the West in a long time. All the horses and mules are young, well built and stood the long journey extremely well, being turned over to the city in excellent condition. They were seen and admired at the Schloss stables, on Dock street, yesterday, by a large number of fine stock.

In the lot are five horses for the police, four mules for the Streets and Wharves Department and two mules for the Sanitary Department. The horses for the mounted police are good saddlers and were selected in part by the chief of police of St. Louis, whom Mr. Schloss asked to accompany him on his mission of buying. They are well adapted to the service and weigh in the neighborhood of 1,200 pounds each. They were brought up to Quinlivan's and were shod yesterday so as to be ready to be put into the service at the earliest practicable moment. Four of the horses will be used for night duty and one in the day time. The policemen who have volunteered for the mounted service were named in these columns a day or two ago. The horses will be kept in stables which are being built in the rear of the City Hall.

The mules for the Sanitary and Streets and Wharves Committees are heavy and well broken. They were found thoroughly satisfactory in every respect by the committees which received them yesterday.

Last night a meeting of both the Streets and Wharves and Police committees was held at the City Hall and Mr. Schloss was given a very cordial vote of thanks for his excellent selection in behalf of the city. The prices were regarded reasonable and the stock is as good as could have been desired by the committees.

THIS NEGRO'S ESCAPE WAS INDEED MIRACULOUS

During the thunderstorm Sunday night a bolt of lightning struck a tenant house on Mr. Giles Westbrook's farm, just outside the city limits, towards East Wilmington One side of the piazza was torn away and the plastering in every room in the house was scaled from the walls. An old ante-bellum negr , was the only occupant of the house and was asleep on a bed at the time. He deilares that he was awakened by the sizzling of a sheet of flame which enveloped the room and that he was pitched bodily out of the bed and against an opposite wall. The house was in the greatest confusion when Mr. Westbrook went to the farm yesterday morning he fully expected to find the old man as dead as a mackerel. But the lightning had reckoned without its host. The old man was found in a field nearby plowing as usual. He explained to Mr. Westbrook that "de Lawd was hittin' at him mighty close, but he missed fur de once," for all of which the old man seemed profoundly grateful and indicated his purpose to live a more circumspect life in the future. Mr. Westbrook will have the house repaired.

FORT CASWELL SERGEANT DROWNED YESTERDAY

Popular Members of 102nd. Company Coast Artillery Bravely Met Death, Shouting to Comrade to Save Himself

Fort Caswell, N. C., June 25.—While in bathing yesterday about 12:45 o'clock, Sergeant Archie Rumell, 102nd Company, Coast Artillery, stationed at Fort Caswell, was drowned in the surf on the beach toward the life saving station here. He and Privates White and Farr, of the same command, were jumping from a boat which was anchored near the beach. After he had jumped in several times, he called to the other men that he could not get back and they went to his assistance but could not bring him out. Although they were good swimmers, it was all they could do to get out themselves from where they had gone to rescue their comrade. As soon, however as they could reach the shore, they gave the alarm and everybody turned out and made every effort to locate the body but without immediate success.

The body was finally recovered last night about 10 o'clock a quarter of a mile from the scene of the drowning. Eleven men were detailed to patrol the beach in search of the body and the first watch that went out, reported the find, the waves having cast the lifeless form ashore. At the time of the drowning, Mr. White got to his comrade and laid hold of him to bring him ashore but the young sergeant saw that it was a hopeless battle against the waves and that if they remained together both would be lost. He cast himself away from Private White and told him to save himself; that he would do the best he could. In this brave manner, he finally went below and death was his part.

Sergeant Rumell's former home was in Hamilton, Ohio, but his people now reside near Alva, Oklahoma. Efforts are being made to reach them with a message conveying the distressing news of the drowning. Sergeant Rumell was an excellent young man, about 21 years of age and was one of the finest young soldiers at the post. He was beloved and trusted by all who knew him. He was one of the leading spirits in the new tribe of Red Men and was held in the highest esteem by the men of the post. His death is generally regretted. It has not been decided as yet what will be done with the body.

"In Prison Stripes."

On account of the very unfavorable weather Sunday evening, the lecture "In Prison Stripes," by Evangelist M. J. Duryea and his daughter was postponed until to-night. The lecture will begin this evening promptly at 8 o'clock and something really interesting and profitable is assured. The lecture will be illustrated and some of the evangelist's most interesting experiences in Temperance Reform will be given in a way that will be sure to please. A silver offering will be taken at the close of the service.

TOLER TO ROADS?

Interesting Construction of Code and Commissioners' Order Develops To-day

IN A RATHER NOTED CASE

Right of County to Work on Public Highways After Sentence to Jail May be Called Into Question —Appeal and Withdrawal.

Another sensational turn in the case of John F. Toler is likely to develop to-day when an order is made for his transfer from the county jail to the roads at Castle Haynes. Toler has abandoned his appeal according to information received by Justice Furlong and being a prisoner in the jail under final sentence for more than thirty days, according to an order made by the County Commissioners about two years ago, there is no alternative for the jailer than to turn him over to the superintendent of the convict force. This would have been done yesterday had Supt. Shearin come in for the prisoners, as usual. But he did not, and it is expected that he will be here to-day in which event Toler will be turned over to him for the service of 90 days to which he was originally sentenced.

The new code, in Section 1355, after introducing an act relative to counties establishing a county convict force, says: "In such counties there may also be worked on the public roads, in like manner, all persons sentenced to imprisonment in jail by any magistrate, and also all insolvents," etc. It will be noted that the act says "may" work on the public roads, etc. The Commissioners acting under this authority passed the order two years ago that all prisoners sentenced for thirty days or more by any magistrate shall be worked on the public roads. The Chairman of the Board was asked yesterday if an order would be made to work Toler on the roads. The reply was that the order was already on the books as to all prisoners and the Commissioners saw no reason to make any exceptions in the case of anyone. On the other hand, friends of young Toler claim that it would not be lawful to send him to the roads and it is expected that some resistance at law will be encountered when the effort is made. It is said that Toler has ten days in which to give notice of his appeal from the magistrate's judgment and although he has signified his purpose not to appeal, he may change at any time and perfect his appeal in which event he could not be sent to the roads, at least for the present.

TO MAYOR YESTERDAY MANY TOLD TROUBLES

More Than a Score of Saturday Night Offenders Received Sentences in Municipal Court—Women of the Half World

The Saturday night harvest of the police was considerable as the result of which the municipal court was in session yesterday for nearly two hours Twenty-three cases in all were disposed of and several were continued. The offences ranged from shining shoes on the postoffice steps to assault and battery with a deadly weapon. There was an immense crowd in attendance and it was with difficulty that order was preserved where there were so many standing up.

Frank James, J. B. Bluefort, John Grady and John Thomas, experts with the bones, were arraigned on a charge of gambling preferred by Officer Ben Reaves, who watched three games and the exchange of coin before he flushed the gang. Some got away but the four before the court confessed up except Bluefort, who entered a plea of not guilty and had Brooke G. Empie, Esq., to defend him. The Mayor found probable cause in all the cases and they were each bound over to the higher court in the sum of $25 which they could not give and went to jail.

John Cumming and Minnie Merritt, a couple of about as depraved mortals as ever shown up in the police court, were given thirty days each for vagrancy upon the testimony of Officer I. F. Huggins.

Ed. and Maggie Brockenton, colored, husband and wife, were charged by Officer Ben Reaves with raising a rough house Saturday night and several neighbors including a colored preacher were in court to tell of the carrying-on of this couple. They were each fined $5 and costs.

James Hall, a small colored boy run in by Officer M. P. Newton for shining shoes on the postoffice steps, pleaded ignorance of the law and his mother, a hefty looking colored woman, promised to thrash him within an inch of his life, whereupon he was discharged.

Marion Southerland, colored, charged by Officer Huggins with an affray, was fined $10 and costs.

Henrietta Gorman, white, was disorderly and upon the testimony of Officer M. P. Newton, was fined $10 and costs.

Jim Spencer, colored, charged with disorderly conduct by Special Officer E. J. Littleton, was also fined $10 and costs.

N. B. Bishop, colored, arrested for disorderly conduct by Officer D. W. Coleman, was fined $5 and costs and on an additional charge of carrying a razor, was bound to the higher court.

A large number of plain drunks were disposed of by taxing the defendants with the costs, it being their first offences.

Fannie DeCosta and Dovie Everett, two young women of the half-world district, were arraigned on a charge of drunkenness on a Princess street street car Saturday afternoon. The Mayor gave the young women a seasonable lecture as to their life of shame which almost moved one of them to tears. She was asked as to the character of the house of one Mattie Allen, where she said she lived. She gave an answer upon which the Mayor felt at once justified in having a warrant issued for the Allen woman and she will be arraigned in court to-day upon the charge of keeping a house of ill fame. The inmates of the house were told that they would be held and the cases against them disposed of after the Allen woman had been brought into court.

THE FINANCIERS AT SEA.

Things have been a little shaky on the New York Stock Exchange for some time, but probably the country will be surprised to learn that conditions are as alarming as the Financial Chronicle (New York) leads us to believe. However, that well posted, able and careful publication, in reviewing the situation in its issue of June 23rd, says:

"That a substratum of intense weakness underlies the security market has been in evidence for months, growing in energy as the months have passed. Indeed on Wednesday this situation was even more plainly demonstrated than hitherto. Capital would seem almost absolutely to have withdrawn itself from stock investments, future vales being thoroughly undermined or largely at sea. .. would be surprising if this were not so. Legislation by Congress and by state lawmaking bodies has surrounded all such securities with so great uncertainty as to earning power in coming years that confidence in future stability is lost. Hence prices are in control of trifling suspicions or rumors of unfavorable facts, whether true or not true, put afloat by those who seek to break the market, although earnings are large, and if rates were not endangered earnings and other natural forces would continue large and promising. The current week developments of legislation hostile to Stock Exchange values have been a conspicious feature. Wednesday the State Railroad Board in Kentucky is reported to have made reductions to local points in that State, some of which reach as high as 25 per cent., and it is asserted that the savings to shippers by the reductions ordered (that is, the loss to the railroads of the State) is estimated by the Commissioners at $1,800,000. Similar action is being taken in several other Western States, while it was also announced on Wednesday that the conferees had reached an agreement on the Congressional Inter-State Rate bill, and that the law will probably be passed the coming week. Altogether it is no surprise that weakness is the prevailing characteristic of the market in face of so many features which ought to induce strength. It will not be long, unless something shall come to arrest this tendency, before we shall find that we have frittered away the best chance for industrial prosperity the United States has ever had offered it."

That is really a cry of distress and it comes from a high source. Evidently it is a strike at Roosevelt over the shoulders of Kentucky. When the President declared that he wouldn't stand for another nomination he "burned his ships behind him" to go on a campaign like that which he has been giving us. His former Attorney General (now Senator Knox) promised that the Administration wouldn't "run amuck," but Knox didn't have Teddy sufficiently tethered or else when he was in the Cabinet he was unsuspecting enough to have looked at the gold brick samples with a notion of buying the biggest in the bunch.

LANDING TIME FOR THE BIG DRY DOCK.

The long cruise of the dry dock Dewey is almost ended and in the next few days, if nothing happened to her after she left Singapore, we will hear of her landing at Manila or Cavite, properly speaking, where she will be used to repair the big ships which we will keep in the far Pacific. It is stated that she will also be used to repair merchant ships, and can take in the biggest manof-war or merchant vessel on the seas. The Dewey can take a 16,000-ton ship aboard and raise her so that the keel will be clear of the water and her entire bottom be exposed for repairs. It is stated that it will only require two hours or little more to take the biggest sihp out of the water. The Dewey is 316 feet long in the centre section, but with side walls her total length is 476 feet. The big dry dock draws only 7 feet of water, but can be lowered to a depth of 18 feet in order to give her stability in stormy weather.

Little doubt is felt that the Dewey will reach her destination safely, and other powers have been watching her progress with a view to constructing like docks for their naval stations far away from home. The fact is Germany has seen enough to be confident that the big dock will be landed safely and is building a similar dry dock at Oberhausen to be towed to the German naval station at Tsing Tau, China. Germany's big dry dock is being constructed entirely of iron, is 410 feet long, 140 feet wide, and is being built to scoop up a ship of 16,000 tons displacement.

CURRENT COMMENT.

—The Kitchins have fared pretty well in the way of offices, and yet if anybody thinks they are not entitled to what they get the field is an open one.—Durham Herald.

—Chicago packers claim they have lost $20,000,000 by the congressional expose of the meat question. The hat will be passed among the consumers, who will be expected to make up the deficit.—Washington Post.

—The death of the great horse, Sysonby, has filled more space in the papers than would the death of most able men. Not every man can insure his life for $100,000 either.—Atlanta Journal.

—It is reported that the Republicans of Buncombe county are going to come before the people on the platform of prohibition. It seems that it's just a question nowadays between the parties of who gets these platforms first. —Raleigh Times.

—Wrightsville wants the Congressional Convention and the Wilmington papers are endorsing that proposition. We suggest either Red Springs or Fayetteville as the best towns for the vention and Wrightsville the place for the friends of the successful candidate to celebrate.—Red Springs Citizen.

—North Carolina's wonderful progress along educational lines during the past five years has attracted the attention of the entire nation. We believe there is not a State in the Union that has gone forward as rapidly during this time. The record of the Democratic party in educational matters will be a hard proposition for Republican candidates to handle when they appear before the voters this fall —Winston-Salem Sentinel.

—"We confess our sympathy for that Greensboro railroad employe who has been sentenced for carelessness that resulted in the loss of life, still if we hold the railroads responsible for the carelessness of their employes it is not right to let the employes entirely out of it."—Durham Herald. That seems to be a reasonable proposition. It will certainly tend to make railroad men realize their responsibility more than they have ever done. Still it looks hard for the men in the ranks to have to run all the risk of imprisonment and disgrace.—Greensboro Telegram.

—An editorial article in the Commoner seems to give decent burial to free coinage of silver as a practical issue in American politics. But it is to be hoped that Mr. Bryan's declaration of war to the knife against private monopoly does not mean that he is on all-fours with Hearst as to public monopoly. To uproot private and corporate monopoly is to carry out the well settled detrines of Democracy. To invest government with the ownership and operation of business enterprises is Socialism pure and simple.—Norfolk Virginian-Pilot.

—What anti trust laws can be made to do if properly enforced is evidenced in Arkansas. The International Harvester Company has just agreed to plead guilty to two violations of that statute and to pay two fines of $10,000 each, as well as all the costs. This concern put in a contract with its agents a clause prohibiting the sale of any goods made by competing firms, and this is an out and out violation of the anti trust statute in that State. Prosecuion was commenced and the defendants, deciding that discretion is the better part of valor, have concluded to plead guilty and pay the fine. That serves as a salutary lesson to others tempted as they were. The State Treasury is enriched by $20,000 and violations of this law will here after be fewer and further between. Really these are troublous times for the trusts.—Utica (N. Y.) Press.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere, seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

SUMMER ATTRACTIONS IN SEASONABLE GOODS AT GAYLORD'S

Ladies' long elbow gloves in silk at $1.25 a pair.

A nice line of Summer neckwear for ladies at 5c., 10c and 25c

Lace cuffs to extend to the elbow, a new novelty at 75c and $1.00.

An up-to-date line of new belts for ladies at 10c., 15c and up to 50c each.

40-inch wide fine India Linons at the remarkable low prices of 10c and 12 1-2c a yard.

27-inch Jap Silk in all colors at 25c a yard.

In Black Taffeta we have secured the agency of "The Blue Ribbon Brand." These goods are advertised throughout the United States at $1.50 a yard.

We want to sell large quatities of these silks and we are offering it at the low price of $1.00 a yard to get it thoroughly advertised in this community. This silk is not only warranted like the most of silk that is seen, but the manufacturers go further and warrants the silk not to split from reasonable wear provided you will not put a hot iron on it and if there should be any fault with the goods, they will not only receive the goods back but will pay for making the dress as well. This is the best silk that is ever sold in Wilmington for the price. It comes only in black with a small blue ribbon selvage. It will afford us pleasure to show it whether you buy or not.

We have placed on sale this week about 500 yards of Summer lawns in pretty patterns for just half price, 5c a yard.

We have several patterns in high grade dress goods, goods for whole suits and especially good for white skirts. Was sold at the lowest price of 25c and now we are offering it for 15c a yard.

MILLINERY—We are offering a specially nice line of white sailors for 50c., 75c and 98c each.

RIBBONS—We have received this week about 1,000 rols of new ribbon. We have a full assortment of colors in little dainty ribbon No. 2 for trimming, at 4c a yard; also No. 5 at 4c yard; Nos. 7 and 9 at 5c a yard; Nos. 16, 20 and 40 at 10c yard; No. 60, 15c a yard; No. 80 at 18c a yard; No. 100 at 20c a yard; No. 120 at 25c yard; No. 200 in the very best and heaviest quality of Taffeta Ribbon, in all colors including white, we are selling at 30c and 35c a yard.

We have also a full line of colors in Nos. 7 and 9 for shoe string Ribbon at 12 1-2 and 15c a yard, the very best quality made.

LADIES DRESSING SAQUES AND KIMONAS—We have quite a nice selection of styles in all prices from 50c to $2.19 each.

UNDERWEAR FOR LADIES—We have also added to this department a nice new assortment of pretty goods. Skirts, Night Robes and Corset Covers. We carry a big stock of these goods at all times.

Remember we control the agency for the Royal Muslin Underwear in this city and there is no underwear sold that is equal to it in value.

Our Corset Covers at 25c are very pretty; every seam is felled and every garment made prefectly. The make and fit is equal to the $1.00 garment so the cheap is as good as the dear and the dear as good as the cheap, the only difference being in quality of material.

See our line if you need underwear.

KNIT UNDERWEAR DEPARTMENT—We are showing a beautiful silk finish lisle vest for ladies that are 50c values. We bought a large quantity that we are now offering at 25c each.

The little gause vest with short sleeves at the special price of 12 1-2c each.

Little children's gause vests with long sleeves and high necks, for 15c 20c and 25c each.

Ladies' gause vests with tape neck at 5c each; better quality of tape neck and sleeves for 8c and 10c each.

Ladies' extra sizes, 7, 8 and 9 in gause vests for 12 1-2c and 15c each.

Hammocks, Mosquito Canopies and nets; Fans Handkerchiefs, Hosiery and almost everything in the notion line has been replenished this week with new and pretty things in every department.

Try Gaylord's Store Monday morning and every day next week and you will find something to buy.

SUMMER SUITS

IT'S ABOUT now that all sorts of Summer Suits will be offered at all sorts of prices by all sorts of clothiers. It will certainly be a good idea for every man that cares anything about the kind of Clothes he wears or what he pays for them to keep both his eyes open and his hand on his pocket book until he is sure that he is on the right track. The man who comes here for his suit will surely not GO WRONG, and

He Can Bank on It

THE CONTINUED SUCCESS of our growing business has made it imperative for MR. SOLKY to make a second trip to the Northern Markets to respond to the demands of our customers and while there he closed out the balance of STROUSE & BROS. Summer Stock consisting of FIVE HUNDRED SUITS, COATS AND PANTS. We also have secured 50 dozen Straw Hats in the very latest shapes that we will place on sale Saturday Morning at greatly reduced prices. Nothing but the BEST of merchandise ever comes in or goes out of this store.

THE NEW SUMMER STYLES are now ready in great variety and we take pleasure in showing them. If you are dissatisfied with anything you purchase from us after you get home, you can come right back and GET YOUR MONEY. That's the WAY we do business.

People who have tried Electric Fans appreciate them and you cannot buy them from them but you can buy them from us. We have lots of them but the factories say we cannot get any bore because they can't make them fast enough. You had better get one or more now while you can. Don't you think so?

We do wiring pretty well too; at least we don't know of a dissatisfied customer. And our prices are right, that's the most interesting part.

SPIRITS TURPENTINE

—John Falls, colored, was killed by a train Saturday night near Charlotte.

—An $800 diamond ring belonging to former Mayor Steven F. Lord, of Salisbury, which disappeared six months ago, was recovered a few days ago from a colored woman who said her husband gave it to her.

—Greensboro Special, June 24: It now seems practically certain that Judge Spencer B. Adams will be elected chairman of the State Republican Executive Committee at the convention to be held here July 10. Already nearly half of the counties have instructed for him. Congressman Blackburn will receive the majority of the votes in his own district, but no other. Rowan and Stanley, two counties in Blackburn's district, will send uninstructed delegates, a part of the delegation known to be in favor of Judge Adams.

—At Selma on Saturday night Miss Pearl Jones, the telephone girl who recently killed a negro who tried to break into the telephone exchange to assault her, again used her pistol on an intruder. Between 11 and 12 o'clock last Saturday night some one was heard walking on a piazza next to Miss Jones' room, but upon investigation the intruder left. Later he returned and his face was seen at the window of her room whereupon she fired through the window. A man was heard to jump off the piazza and run.

—Thomasville Special, June 23: Last night in the dining hall of the Mock House there was a meeting to consider plans for continuing the Thomasville & Glenn Anna Railroad, which already reaches Denton, to Wadesboro and also through High Point, on to Winston-Salem. Mr. Dee Allen, representing wealthy capitalists of Philadelphia, was at this meeting. Thomasville will probably hold a bond election on this subject some time in the near future. This extension would give the town connection at Wadesboro with the Seaboard Air Line and at Winston-Salem with the Norfolk & Western. High Point and Thomasville will pull together to get this road. The part of this road already built that reaches Denton is owned exclusively by Mr. Milt Jones, of this place.

—Salisbury Special, June 24: Lightning played an unusual trick this afternoon, when it struck the rectifying establishment of the Rowan Distilling Company and burned it immediately to the ground. The fire bell was sounded at once, but the building stood on the edge of the city and the place was not accessible. Besides the fire had gained such headway that nothing could have extinguished it. It was during a fierce wind and a heavy rain fall that the liquor house was hit and the fire went off with no spectators to grow excited over it. This is said to be the second occurrence of this kind in the history of Salisbury, although there may be more. There was a large quantity of whiskey in the rectifier, high grade goods that went off into fumes that could be smelled all over the city. The exact loss in gallons and dollars is not obtainable and there was considerable insurance upon the property.

—Asheville Special, June 24: The United States government has taken up the matter of the disappearance of Miss Josephine Hood, the young Asheville bride, who is believed to have married the notorious bigamist, "Lord Donglas," at New Iberia, La., December 18, 1905, and who, from that day to yesterday, had not been heard from. Mrs. Platt, of Asheville, aunt of the missing girl, has received a communication from United States Senator Lee S. Overman, in which Senator Overman says that he has taken up the matter with Secretary of State Root. Senator McEnery, of Louisiana, has written Harry Roberts, of Fletchers, an uncle of Miss Hood, that he will take the matter up with Secretary Root and that he has written to the Governor of Louisiana, asking that the Chief Executive of that State interest himself in the case. The widespread interest in the stories of the disappearance of the Asheville girl and the belief that she is the bride of the bigamist, Douglas, in the opinion of many people here, will result in apprehending Douglas, or Cavendish. The distressing affair is the one topic of conversation in Asheville and much sympathy is felt for the friends and relatives of the young Asheville girl.

LOCAL DOTS.

—A mad dog was killed yesterday afternoon at Second and Marstellar street. The dog was killed by some one in the vicinity before it had bitten anything.

—The repairs and repainting of the interior of the City Hall are nearing completion. Mr. J. E. Hatch had the contract and has made a wonderful improvement.

—Contractor Price Furpless has been granted a permit to build a two-story slate roof residence for Mr. M. J. Corbett, on Fourth, between Dock and Orange streets, the same to cost $3,000.

—License was issued Saturday for the marriage of Mr. J. R. Bell and Miss Martha E. Pedrick, both of Middle Sound, the groom being a son of Mr. and Mrs. R. W. Bell, and the bride a daughter of Mrs. Mary E. Pedrick.

—The steamer Duplin is reported hard and fast ashore in the river near Chinuepin. Duplin county. The recent freshet in the river subsided more rapidly than was ever known before. The Duplin cannot get off the bottom until several feet of water rises.

—The gun club shoot on the police excursion to-morrow will take place at 4 o'clock. The Southport team will meet a team from the Wilmington police force. There will be five trips of the boat during the day and a good time for all who become guests of Wilmington's "finest."

—While conducting the funeral of Mrs. Hudson on Sunday, Rev. A. J. Parker, pastor of Bladen street, M. E. church, received a telegram calling him to the bedside of his sister, Mrs. J. J. Burgess, of Woodland, N. C., and he left immediately for that place. Rev. T. J. Browning will have charge of Mr. Parker's work during his absence.

—A box of fine cigars offered by the Crescent Cigar Store for the best exhibition of baseball in the City League was won Saturday afternoon by the Market Street Giants. The boys desire to thank the genial proprietors of the store for their thoughtfulness in this regard. Mr. E. B. Moss, proprietor of the Oasis, has offered a box of fine candy to the team putting up the best exhibition in the League next Saturday.

Funeral of Mrs. Tyler.

The funeral of the late Mrs. Thad F. Tyler was conducted Sunday morning at 10 o'clock from the residence on South Fourth street, by the Rev. T. P. Noe, minister in charge of the Chapel of the Good Shepherd. A large number of friends were in attendance to pay a last sad mark of respect and esteem to the good woman and to comfort the bereaved ones. There were a number of very handsome floral designs. The remains were tenderly laid to rest in Oakdale cemetery, the pall bearers having been Messrs. J. O. Wiggs, S. F. Yopp. Mart Jones. W. A. Bingham, E. J. Holton and J. T. Dooley.

Married at Rocky Point.

A marriage of quite a little interest to a large number of friends was that of Miss Laura White to Mr. Robert P. Futch. which was solemnized at the residence of the bride's father, Mr. Robert White, at Rocky Point, yesterday morning at 8:30 o'clock, J. E. Durham, Esq., officiating. Mr. W. K. White was best man and Miss Pearl Westbrook, maid of honor. The other attendants were Mr. Ennis Futch and Miss Porthena Westbrook.

Following the Flag.

When our soldiers went to Cuba and the Philippines, health was the most important consideration. Willis T. Morgan, retired Commissary Sergeant U. S. A., of Rural Route 1, Concord, N. H., says: "I was two years in Cuba and two years in the Philippines, and being subject to colds, I took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now, in New Hampshire, we find it the best medicine in the world for coughs, colds, bronchial troubles and all lung diseases. Guaranteed at all Druggists. Price 50c. and $1.00. THE STATE BAR ASSOCIATION

Delegates Continue to Arrive For Annual Meeting at Wrightsville Beach —To Receive Hon Hannis Taylor.

Delegates are still arriving for the annual meeting of the North Carolina State Bar Association which will convene at the Seashore Hotel, Wrightsville Beach, to-morrow night. Last night's arrivals included Col. Wescott Roberson, of High Point; Solicitor A. L. Brooks, of Greensboro, Mr. J. E. Womack, of Raleigh, and W. A. Stewart, of Dunn. Not a few went straight through to the Beach yesterday and did not register in the city at all. A programme of the exercises has already been published.

Hon. Hannis Taylor, of Washington, D. C., whom the Association was so fortunate to secure to deliver its annual address this year, will arrive today and will be the guest of his cousin, Mr. J. C. Stevenson, of this city. A number of leading men have been invited to meet the distinguished jurist at an informal reception at the home of Mr. Stevenson this afternoon. The annual address of Mr. Taylor will be delivered to the Bar Association tomorrow night.

NOTES OF THE SHIPPING.

Vessels Out With Cargoes—Schooner Arrives With Coal.

The British steamer Glenwood, which has completed discharging cargo of kainit here for the Navassa Guano Company, has cleared light for Pensacola.

The Sweedish barque Wanja, Capt. Holmgren. cleared yesterday for Bristol, Eng., with cargo of 4,060 barrels rosin, consigned by Paterson, Downing & Co.; vessel by Heide & Co.

The British schopner E. A. Sabean, Capt. Sabean, cleared yesterday for Kingston. Jamaica, with balance cargo of shingles from the Springer Coal Company; vessel by C. D. Maffit.

The schooner Edwina, arrived yesterday from Perth Amboy, N. J., with cargo of coal for the Springer Coal Company.

Burned in Transit.

The new car for the Consolidated Company arrived Sunday via Seaboard Air Line from the shops of the builders in Philadelphia. In transit a canvas over the car as it was loaded on a flat caught fire in some way from a locomotive ahead and when it was received here it was in pretty bad shape. It was taken out to the company's shops yesterday and a force of A. C. L. car builders and painters have been engaged to put it in order again. The railroad company will, of course, have to bear the loss in the damage by fire while in transit. It is hoped to have the car ready by the fourth of July rush

"Judge" Bornemann to the Lawyers.

Apropos the annual meeting of the State Bar Association at Wrightsville Beach this week, a reporter was informed by Justice Bornemann yesterday that he had received and accepted an invitation to make an address to the fraternity during the sessions this week. The reporter suggested that "The Law From the Viewpoint of a Magistrate" would be an appropriate subject. But the gratuitous reporter was informed that the subject had already been selected. The lawyers will hear Justice Bornemann on "What the Law Is." A privileged few have heard the "Judge's" introductory and the speech has been pronounced very fine.

Blew Flat Car Down the Track.

During the storm from the west early Sunday evening a flat car standing on teh Carolina Beach pier was blown down the track for some distance. The train coming over from the beach was laden with passengers and ran directly into the obstruction. The car mounted up on the locomotive and several of the passengers were thrown forward and slightly hurt by the impact, but none of them seriously. A delay of not more than ten minutes was occasioned. In order to avoid the wet seats, most of the passengers were standing and for that reason they were more easily thrown.

Crabs in Plenty.

Reports from Southport and the beaches are to the effect that never before were there so many crabs to be caught in these waters. At Southport the phenomena is said to be very pronounced, and the most knowing "sea dog" is unable to account for the great plenty of the shell fish. They are easily caught in the largest quantities and crab feasts are said to be on tapis everywhere and all the time.

She Refuses to Leave.

Mamie Gaskill, one of the white women from a house near Tenth and Castle street, upon whom the Mayor suspended judgment upon condition that she leave town, was picked up by Officer I. F. Huggins yesterday afternoon. She informed the officers that she did not have the money to leave on and was not able to walk. The Mayor will give consideration to the case to-day.

David J. Lewis, Esq., for Judge.

A dispatch from Lumberton on Sunday states that David J. Lewis, Esq., of Whiteville, will be a candidate for judge of the Seventh Judicial District before the forthcoming Republican Judicial Convention. His Democratic opponent will be Hon. C. C. Lyon, of Bladen, who was unanimously nominated at the recent convention at Fayetteville.

BOYS' BRIGADE INTO CAMP

Next Saturday Decided Upon as Date For Annual Outing at Southport— The Juniors in August.

At a business meeting of the Boys' Brigade last night at the armory it was decided to go into camp for the annual encampment at Southport next Saturday, remaining there for a week. This has reference to the Senior Brigade only, which will leave on the boat Saturday afternoon at 4:30 o'clock, remaining in camp until the following Saturday. An advance guard will leave Wednesday to have everything in readiness for the coming of the full Brigade three days later. The boys are looking forward to the encampment with a great deal of pleasure and hope to carry full ranks of something over 30 men. They go at the invitation of the town council of Southport and will be there for the elaborate fourth of July celebration which the people of the Lower Cape Fear are planning. It is earnestly hoped that no employer of a member of the Brigade will be so short sighted as not to see the advantage of allowing their employes an opportunity of atending this encampment. It is here that Col. Taylor, the commander, gets in touch with the boys and inculcates into them principles which result in better service when they return and make them better men in every respect. The employers have been very liberal in the past in this respect and it is hoped that this year will be no exception.

It has been decided not to have the encampment of the Junior Brigade until August. This will be on the Sound at some location yet to be decided upon. Manager Young will be in command of the latter camp and hopes at that time to carry a full quota of men.

Sad Death at Point Caswell.

Mrs. Maggie Glisson, wife of Mr. H. L. Glisson and a woman much esteemed by all in the circle of her acquaintance, passed away Saturday morning at 9 o'clock at the family home at Point Caswell. Mrs. Glisson was 45 years of age and had been in poor health some time. While her death was not unexpected, it came as a sad blow to family and friends. Mrs. Glisson was a daughter of the late Isaac Hollingsworth and Mrs. Margaret Hollingsworth, of Fayetteville, and was raised in that city. She had been a consistent member of the Baptist church for 35 years and died as she had lived—a Christian woman. She leaves two sisters, Mrs. Mary Watson, of Point Caswell, and Mrs. Bettie Decker, of Fayetteville. The funeral was conducted at Point Caswell Sunday afternoon and the remains were laid to rest beneath a mound of beautiful flowers.

Funeral of Mrs. Hudson.

The funeral of the late Mrs. Miranda W. Hudson, wife of Mr. W. R. Hudson, was conducted Sunday afternoon from the residence, Rev. A. J. Parker officiating. There were a large number of friends of the family in attendance and a number of beautiful floral tributes were laid on the casket. The interment was in Bellevue, the pall-bearers having been Messrs. Jno. Wilkinson, Frank Frisco, Jno. W. West, J. A. C. Hatchel, James Mintz and D. Mason.

Claude A. Leslie Dead.

Claude A. Leslie, a well-known young white man of the southern part of the city. died yesterday morning at 7 o'clock at the home of his mother, 702 King's alley. He was in the 29th year of his age and had been in poor health a long time. He leaves a wife and several children as well as several brothers and sisters. The funeral will be conducted to-day.

Sale at the Court House.

Pursuant to an order of the Superior Court, Joseph W. Little, commissioner, yesterday sold at auction to the highest bidder at the Court House door a lot of city real estate on south side of Brunswick street. 46 feet east of Third street, 59½x66 feet in size. It was bid in by C. D. Weeks, attorney, for $1,315. The sale is, of course, subject to confirmation of the court.

West India Curios.

A small schooner from the West Indies, laden with green cocoanuts, colored sea grass and other tropical vegetation, is anchored off the Hotel Tarrymoore at Wrightsville Beach. The curios are offered for sale to the hotel guests and the captain of the little ship seems to be doing a good business.

Freaks of the Avalanche.

One still January night a number of people in a tiny Swiss hamlet of the Canton Valais quietly abandoned their homes, and shortly before midnight the avalanche broke loose with plunging roars. It started many others in its downward roll, left the usual track, broke through and destroyed an old straggling larch forest and completely buried a big chalet in which twenty-six persons had taken refuge. Of these nineteen were killed and seven saved. This avalanche found a final resting place in a lake which its broken masses struck with terrific impact, causing thousands of fish to rise to the surface, quite dead. This reminds me that yearly tens of thousands of chamois, foxes, marmots and all kinds of birds, including even the lordly eagle himself, are destroyed by avalanches and their attendant hurricanes. Last season at Andermatt a superb mountain eagle was dug out of an avalanche alive, together with the sheep upon which it had been preying. —Woman's Home Companion.

The Romantic Air of Frisco.

San Francisco is permeated with an air of romance and adventure. Nowhere may one turn without being reminded of the legends that have been woven around the forty-niners and their immediate followers. The names of the streets and of the business blocks, such as Kearney, Sutter, Montgomery, Dupont, Flood, Crocker and Sharon, bring to the mind of the visitor long forgotten stories of riot or adventure and of fortunes whose vastness once excited his wonder or made him incredulous. To read the words that are painted upon the street cars of San Francisco is to be carried back in fancy to the time when the city was peopled only by those who, having turned from all else that men hold dear, had gone in search of fortune and found it, always just as they were about to give up in despair and die of starvation or succumb to the hardships with which human endurance could no longer cope. —Chicago Record-Herald.

Lincoln's Bar Record.

In his twenty-three years at the bar Lincoln had no less than 160 cases before the highest court of Illinois, a record unsurpassed by his contemporaries. He appeared before the United States circuit and district courts with great frequency, he was the most indefatigable attendant on the Eighth circuit and tried more cases than any other member of that bar, he was attorney for the Illinois Central railroad, the greatest corporation in the state and one which doubtless had its choice of legal talent; he was also counsel for the Rock Island railroad and other corporations and individuals with important legal interests at stake, he was sought as legal arbitrator in the great corporation litigations of Illinois, and he tried some of the most notable cases recorded in the courts of that state.—Frederick Trevor Hill in Century.

Mental Poise and Health.

People who reach extreme old age are, as a rule, pretty well balanced physically and mentally. A poised life is serene, and serenity and harmony tend to longevity. The mind that is not well balanced is constantly jangled and out of tune. There is a constant jarring which racks the whole human machinery. There is discord in an unbalanced life, and discord is always destructive—deadly. The well poised, dignified life is not thrown off its center quickly. The man who goes all to pieces over trifles is one sided. There is a momentum in a poised, balanced nature which steadies its progress and helps hold it on its chosen track.

Hot temper, constant mental confusion and disorder are vitality sappers—life shorteners.—Success Magazine.

The Natural Way.

A philanthropic person heard of a negro family that was reported in destitute circumstances, and, calling at their domicile, he found the report true. The family consisted of the mother, a son nearing manhood's estate and two young children. The benevolent old gentleman after hearing the mother's story gave her eldest son $1 to get a chicken for the Thanksgiving dinner and took his departure. No sooner was he gone than the negress said to her son, "Sambo, you done gib me dat dollah and go get dat chicken in de natchral way!"—Chicago Inter Ocean.

Odd Graveyard Inscriptions.

At Worcester, England, the slab erected over a departed autioneer is inscribed with a single word, "Gone." In Sussex the initials and date of the death of the deceased are followed by two words, "He was." The most remarkable inscription is at Cane Hill cemetery, Belfast, where the inscription says, "Left till called for."

Piling It On.

"Our minister does have the hardest luck. Just think, the baby's down with the croup, Albert broke his collar bone last week, their horse died yesterday, and now Mrs. Rector has pneumonia."

"I suppose that by and by, on top of all that, some fool will get them up a donation party."—Woman's Home Companion.

Two Ways to Prosper.

Two kinds of business men are bound to succeed. We refer to the man who knows how to advertise and to the one who knows that he does not know, but knows enough to get one who does know to write and place his advertisements for him.—Troy Press.

Practiced What He Preached.

Hills—Gruet says that he believes in keeping in touch with his fellow men. Mills—Well, there aren't many of them that he hasn't touched.

The weakest spot in every man is where he thinks himself the wisest.—Emmons.

Letters In England Not Private.

You cannot regard any letter you may send through the post as being private. The government has a legal right to open any letter or parcel passing through the post and is also entitled, of course, to use any information thus obtained in furtherance of the interests of the law. At one time the official and secret opening of "private" letters was of such common occurrence that postoffice employees were sent to France to take lessons from an expert in the art of opening and resealing letters. In 1812 the postmasters of Manchester, Nottingham and Glasgow were instructed to "open all such letters as should appear to be of a suspicious nature and likely to convey seditious information," and so recently as fifty years ago there was an agitation to deprive the government of the right to open letters passing through the post. The agitation failed, however, so that your letters are still liable to be opened, and the law would be on the side of the official opener.—London Answers.

Snake Hunting With Noses.

When the Australian aborigine is pushed and can find no other game, he catches snakes for food. With his wonderful brown eyes he can see the faintest trail where a snake has zigzagged through the dry moss and leaves. At nighttime his broad nostrils take up the chase, and, stooping down among the bushes, with a tough forked stick in his hand to support him, he follows the track as unerringly as a bloodhound. When he runs a snake to earth, if he cannot surprise it in the open and kill it by a sudden blow of his stick, he squats over its hole, making a low hissing or whistling sound with his lips. Soon the snake puts its head out of the hole and peers round. In an instant the forked stick descends and fixes it to the ground by the neck, and the black fellow, seizing it behind the head, so that it cannot bite him, drags it out of the hole and either twists its head off or pounds it on the ground till its back is broken.

Humanity and Machinery.

Machinery is the cornerstone of modern society, the very foundation on which law, science, ethics, the arts, even the state itself, rests. It is so new that we do not yet know its poetry. We do not yet understand. Only two generations have lived beside the highway of steam; only one has seen the Bessemer converter transform the blacksmith into the master builder of ships and towers. The sewing machine, the far speaker, the typewriter, are common things of today, accepted as a matter of daily convenience, and yet are they teachers of the people. Machines that come close to our lives and homes insensibly teach truth, precision, the adjustment of universal laws to human needs, respect for that wise American idea that labor saved is labor released for higher and nobler toil. The machine is the head master of the high school of the race.—Reader Magazine.

At a French Wedding.

A wedding feast is an important ceremony in France among all classes of society. Even among the very poorest of the Parisians a wedding banquet is the occasion for a reckless expenditure of money in the purchase of wine and viands. In Brittany a wedding is even a more gorgeous affair than in Paris. At a recent wedding ceremony in Brittany the guests numbered 1,200, and three bullocks were slaughtered to provide them with meat. Wine was consumed in large quantities, and in addition forty barrels of cider was consumed.

The Currant.

The currant of commerce is said to be one of the most nutritious forms of food, a pound of the little berries from Greece containing more than three times as much actual nourishment as the same weight of lean beef. "Currants," says one authority, "should really be eaten every day. They contain all the beneficial properties of the apple, but in greater proportion." The most important fact connected with them is that they supply the body with muscle building and nerve sustaining material in a form ready for speedy digestion and assimilation.

Lion of Babylon.

One of the oldest and at the same time most interesting bits of pictorial work which have been preserved from antiquity is that of the lion of Babylon, and so careful was the workmanship that even after the lapse of several thousand years not only the outline, but the color, is very distinct. The figure was used very generally for decorative purposes in ancient Babylon.

Childhood.

Man begins life helpless. The babe is in paroxysms of fear the moment its nurse leaves it alone, and it comes so slowly to any power of self protection that mothers say the salvation of life and health of a young child is a perpetual miracle.—Emerson.

How It Was.

The Magnate—Do you mean to say, sir, that you will charge me $1,000 for this operation if I live and $2,000 if I die? How is that? Great Surgeon—If you die it will be so much easier to collect from the estate.—Life.

Caustic.

"And you are ready to forgive your daughter for eloping with me, sir?"

"Yes, I'll treat her kindly. The poor girl will be sufficiently punished in having you for a husband."—Cleveland Leader.

Paradoxical.

Brown—Walking down this steep hill is pretty trying, isn't it? Green—It is, indeed; it is regular uphill work.

POLVOGT'S INVENTORY SALE

June 27th to July 7th.

Our Inventory Sale held last year was a great success. This year we propose to eclipse any sale we have ever held before, and invite your careful attention to our advertisement below. We take our Inventory the end of July, and in order to reduce our large stock we have placed a ticket on each and every article in our store with the Inventory price on it. Every house-wife must break away from the pratter of routine, lay aside her work and spend the day at Polvogt's, when the door opens Wednesday morning at 8:30. You want to be among the first to push in. Our store will be closed every day between the hours of 1 and 2 o'clock for our saleespeople to get lunch and catch their breath.

THE COTTON MARKETS.

New York, June 25.—The cotton market broke sharply after a steady early session and closed at a net decline of 5 to 12 points. Sales for the day were estimated at about 300,000 bales, with most of the business after midday. The opening was steady at unchanged prices to an advance of one point on more liberal response to the relatively firm Liverpool cables being prevented by reports of rain in Texas Sunday. But it appeared that the early advices that these rains had been insufficient to materially relieve the drouth being followed by very high temperatures again this morning, and with Liverpool a good buyer of the new crop months here on a straddle, the market worked up to a net advance of 4 to 10 points, July leading the upward movement. After the advance, owing to forecast calling for further showers in Texas, prices sagged back a few points, but showed a little sign of weakness until after a circular issued by the leader of the May bull pool had been issued stating that the pool intended to deliver about 48,000 bales remaining of the May cotton on July contracts. The market closed within a point or two of the lowest, although the final tone was steadied by coverings.

Estimated receipts at the ports today 5,482 bales against 4,504 last week and 10,947 last year. For the week 31,000 bales against 31,823 last week and 75,548 last year. To-day's receipts at New Orleans 1,853 bales against 1,765 last year and at Houston 160 bales against 1,408 last year.

Spot cotton closed steady, 10 points decline. Middling uplands 10.80; middling gulf 11.05; sales 4,695 bales.

SENATOR TILLMAN USES MUCK RAKE

Says Standard Oil Company Has Got in Its Work on Some Senators.

SHOULD BE BRANDED WITH S O

South Carolina Senator Objected to Letting Oil Trust Escape From Regulation Under Rate Bill—Interesting Debate on Measure.

By Wire to the Morning Star.

Washington, June 25.—When the Senate met today the clerk of the House announced the action of that body on the railroad rate bill, but it was allowed to lie on the Vice President's desk until 2:30 P. M., when it was called up by Senator Tillman. Mr. Tillman called attention to the fact that his name was not attached. He said he was opposed to the agreement concerning one amendment, to which he would later move that the Senate disagree.

He had reference to the McLaurin amendment divorcing the carrying and producing business, which was amended so that it does not apply to pipe lines. The change in this amendment "in plain English," he said, "meant that the Standard Oil had got in its work." The agreement in regard to this amendment, he said, relieved the Standard Oil Company from control and regulation of the Interstate Commerce Commission. When the bill was sent to conference the second time, conferees insisted upon opening up tirely different atmosphere from that of the first conference, as the House conferees insisted upon opening up the whole subject, including all matters to which an agreement had been reached. "Then I began to smell a mouse or something," he said He contended that the change of the words "common carriers" to "railroads" would simply destroy the effect of making pipe lines common carriers. By this change the divorcement of transportation from production would be confined to railroads, thus relieving the Standard Oil Company from the operation of the requirement that transportation companies shall not carry articles produced by themselves." So firmly was he convinced of the instrumentality of the Standard Company in securing this change that in his estimation "every Senator who votes for the conference report would have 'S. O.' branded on his forehead. He did not mean to vote for it because he did not want anybody saying "You've got 'S. O.' branded on your forehead, Ben Tillman." He considered the independent companies, whose interests are supposed to be involved to be myths.

Senator Lodge agreed with Mr. Tillman that the purpose of the change from "common carriers" to "railroads" had been to "let out the Standard Oil Company so that it could continue to both produce and transport oil." Under the amendment of the Senate, he believed that the pipe lines could be compelled to carry the product of the independent companies. He believed that all of the agitation in the supposed interest of the independent companies had been instigated by the Standard Oil.

Senator Foraker contended that there was no proper analogy between a railroad and a pipe line. He said, pipe lines are not built with the purpose of doing a carrying business for hire, which is not the case with railroads. He believed that to retain the commodity provision as it passed the House would be to confiscate the property and that, therefore, would not have been sustained by the courts, hence he was going to say that he thought the conferees had acted wisely at the risk of being branded in the estimation of Mr. Tillman, by the Standard Oil Company. The Ohio Senator called attention to the fact that carriers by water are not regulated by the bill, which he said, does away with the argument that the bill should be made applicable to all modes of transportation.

Senator Cullom, one of the conferees agreed with Mr. Tillman that the present report was not as good as the first one. He had originally stood with Mr. Tillman for everything calculated to injure the Standard Oil Company but since then he had received many protests from independent oil producers in his own State. He was not willing to punish his own people merely for the purpose of punishing the Standard Oil Company.

Senator Lodge could see no justice in making an exception of pipe lines as common carriers. He also objected to the anti-pass provision excepting persons engaged in the postal service, and Mr. Tillman replied to the latter point by saying that the intention had been to relieve every postal clerk of the necessity of paying for transportation which would cost the government not less than $15,000,000 annually.

Mr. Lodge also found fault with the pass provision on the ground of discrimination. "It actually authorizes and incites a method of discrimination which constitutes a valuable rebate in favor of a favored shipper; it strikes at the central principle of the bill. It endangers some of the most important provision of the bill." He said that while passes are prohibited to public officials, there is nothing to prevent the railroad companies' issuing passes to delegates to political conventions.

Continuing Mr. Lodge said that a Senator or member is "a part of the government," and not "in the service of the government" and he read from decisions by the Supreme Court in support of his contention.

Senator McLaurin took issue with a remark made by Mr. Lodge that Senators and members of Congress are not officers of the United States. When at 6 o'clock, Mr. Tillman appealed to Senator McLaurin to desist and allow the bill to go back to conference, Mr. McLaurin objected, saying that this was "a nice proposition in view of the fact that the Senator from Carolina had spoken on this measure ten times as much as he had."

IMMIGRATION BILL PASSED.

House Discusses Measure—Williams After Secretary of Treasury.

By Wire to The Morning Star.

Washington, June 25.—Under a rule limiting debate on all but two sections, the so-called immigration bill was discussed for three hours to-day in the House and passed without a yea and nay vote being permitted on any of the paragraphs. This will attracted much attention, the representatives having large foreign colonies in their districts lining up generally against the head tax of five dollars, which was defeated and against the educational test. After a very interesting contest a substitute for the educational test, providing that the whole matter be submitted to a committee, was adopted by a close vote. The most important features of the bill were then eliminated and the bill was passed without division.

At 5:35 P. M. the House took a recess until 8 o'clock this evening to devote three hours to oratory.

The general deficiency appropriation bill was reported to the House. The bill carries a total of $10,245,509 to supply deficiencies in the various departments of the government.

The House insisted to-day on its amendment to the pure food bill and asked for a conference.

Mr. Williams, of Mississippi, introduced a resolution calling upon the Secretary of the Treasury for correspondence in the matter of two rulings of the Department, one relative to the additional duty of one cent per pound on cold rolled steel, and second, as to the duty on by-products of petroleum. Mr. Williams explained that the resolution is intended to get information to show that the Department has endeavored to make rulings which would let in certain steel products at lower rates than contemplated in the tariff act, and in both cases has been overruled on appeals, since which entirely new cases have been started by the Department regarding the same matters.

Doan's Kidneys Pills cure them all.

Policeman R. E. Smith, who lives with his family at 213 Boundry street, Goldsboro, N. C., says: "I have used Doan's Kidney Pills and have been very well pleased with them. They did me so much good that we decided to try them on our little boy who seemed to be suffering from a weakness of the kidneys. He could not hold his urine and we have had to lift him out of bed several times a night or he would pass it in his sleep. Since giving him the pills we have been entirely relieved of this annoyance. My trouble was with my back. I always had a pain right across the small of it, and the secretions were dark colored and heavy with sediment. Since I used the pills my back is much stronger and does not ache at all and the urine has been cleared up to a natural condition. I certainly advise all sufferers from kidney troubles to try them."

OUR GATES WIDE OPEN FOR THE PERSECUTED

House Yesterday So Amended Immigration Bill As to Admit Foreigners Fleeing for Their Lives on Account of Religion.

By Wire to The Morning Star.

Washington, June 25.—The recent atrocities in Russia resulting in the killing of many Jews, and the murders at Kischeneff, came in for strong and vigorous speeches in the House to-day on the part of Mr. Littauer, of New York, and Mr. Goldfogle, New York. Mr. Littauer offered the following amendment to the immigration bill which was adopted without division:

"An immigrant who proves that he is seeking admission to this country solely to avoid prosecution or punishment or religious or political grounds, for an offense of a political character or persecution involving danger of imprisonment, or danger to life or limb on account of religious belief, shall not be deported because of want of means or the probability of his being unable to earn a livelihood."

He spoke sympathetically of the political refugees, who, driven from home, seeks this country because of their belief almost amounting to a fetish that here religious persecution is unknown.

In supporting the amendment, Mr. Goldfogle said he favored even a broader publication, which would exempt the persecuted refugee from the educational qualification test. America, he said, had always been regarded as the haven to which, if the immigrant was worthy, he could come to escape from the tyranny, race intolerance and oppression to which he had been subjected in his native land. Now that the streets of Russia ran red with blood of the victims of persecution and the civilization of the world had been "shamed" by the wholesale slaughter of inoffensive men, women and children, America ought not to close the doors to those who are fleeing to this country for protection.

A Human Salamander.

Some years ago a Spaniard named Martines gave one of the most extraordinary exhibitions on record. It was at the New Tivoli, in Paris, in the presence of an audience of scientific men, who placed its genuineness beyond doubt. A large oven had been heated by a furnace for several hours. This the Spaniard entered, clothed in flannel trousers and shirt, a large cloak of the same material and a felt sombrero. He sang a song while a fowl was roasted by his side and at the end of fifteen minutes came out again, the temperature registered being between 292 degrees and 312 degrees F., or about 100 degrees above the temperature of boiling water. He entered the oven a second time and ate the fowl which had been roasted beside him. After a short pause he was shut in, lying on a board surrounded by candles. After awhile the audience raised a cry of "Enough!" The door was opened. The oven was found to be full of noxious, suffocating odor of boiling tallow, the sole survival of the candles. The Spaniard came out and after a cold bath was well and strong. His pulse when the door was first opened beat 176 to the minute.

St. Peter's Chair.

Rome itself is spoken of as the chair or throne of St. Peter by some early writers, but the actual episcopal chair which he is believed to have occupied may still be seen in St. Peter's, a worm eaten wooden structure, preserved in a bronze covering, says the London Chronicle. It is from such chairs of episcopal and other authority, of course, that we get the phrase "ex cathedra" and the word "cathedral," an abbreviation of "cathedral church," the church that contains the bishop's cathedra or chair. Some of the uses in old fashioned English of the adjective "cathedral" seem quaint now. "Cathedral dogmatism" meant not the dogmatism of a dean and chapter, but that of any one who spoke with an assumption of authority. A "cathedral beard" was a broad beard of a fashion anciently worn by bishops, and in Johnson's time "cathedral" seems to have been slang for "antique."

How Little Savings Roll Up.

If a parent deposits $1 at the birth of the child and adds at each succeeding anniversary of the birthday a number of dollars equal to the number of years, the amount by the time the son or daughter is twenty-one years old, computed at 4 per cent interest, compounded semiannually, will equal $300. This would be a substantial nest egg to begin life with. The man who deposits only 25 cents a week, drawing 4 per cent, compounded semiannually, will have to his credit at the end of five years $73, at the end of ten years $162, at the end of twenty years $403 and at the end of forty years $1,294. The man who saves $5 a week at this rate would be worth at the end of forty years the snug fortune of $25,888.—Leslie's Weekly.

Neckties as Railway Signals.

"Red neckties are always worn by foreign brakemen and conductors. Ever notice it?" said a railroader.

"No. Why is it?"

"As a safety device," was the reply. "These red neckties that flash upon your gaze on the railroads of Italy, France, Germany and England are not a sign that the people have a gay taste, but that they are cautious and prudent.

"The neckties are supplied free by the railroad companies for use as danger signals in emergency. Thus, no matter when or where an accident may happen, there is no need to search or scramble for a red flag, but the brakeman whips off his red necktie and waves it frantically aloft."—Minneapolis Journal.
